ETA

International

ETA® International (Electronics Technicians Association, International), founded in 1978, is a not-for-profit, professional association promoting excellence in electronics technologies through certification.

For more than 40 years, ETA® International has represented the individual technician. While the representation has broadened over the years to include educators, business leaders, and military personnel, the mission is the same - fostering excellence in certification by providing industry-accepted credentials that are accredited, technical, and vendor-neutral.
